KENNETH M. BOYER, M.D.
PROFESSOR AND ASSOCIATE CHAIRMAN
DIRECTOR, SECTION OF INFECTIOUS DISEASES

November 6, 1995

Mr. & Mrs. Steve Nagel
700 Highway 69 South
Albert Lea, MN 56007

Re: Lindsay

Dear Mr. & Mrs. Nagel:

Enclosed is a Xerox of Lindsay's March 17, 1995 Western Blot, in addition to copies of all the other lab tests we did. From my point of view, there is no doubt about her diagnosis. I encourage you to continue her follow-up in a university medical center and to seriously consider enrolling her in protocol treatment, such as the ACTG protocol 300. If you are interested, Lindsay would probably also be eligible for treatment in a study sponsored by the National Cancer Institute and run by Dr. Phil Pizzo. Let me know if I can give you information on either of these. They are the approaches to treatment which are most likely to maximize her quality of life.

I don't know why you have not been billed for your tests. These things have a way of eventually coming to you. But if not, I'm not saying anything.

Regards,

A handwritten signature in cursive script, appearing to read "Ken Boyer".

Kenneth M. Boyer, M.D.
